Individual Support

- Japan Heart gets most of its support from private individuals. We rely on the generous donations and gifts of people who want to join the cause of saving children's lives.
- Overcoming the barriers around providing medical care to the poor is costly. However, even the smallest contributions add up to powerful outcomes. Japan Heart aims to ensure that we use the maximum percentage of donations for treatment related purposes.
- Giving monthly is the most effective way to contribute, and many of our donors contribute from as little as \$2.50 per month.

Partnerships

- We are always looking for ways to contribute more and more to the society. The helping hands we get through your generous financial contributions and in-kind support from our strategic partnerships is vital to do that. We believe in working together with likeminded foundations, organizations and corporations to become the best that we can be. If you are interested in learning more about partnering with us, please contact us at
- Below are some of our partners who have done special contributions in carrying out our mission.
